To Whom It May Concern

Dear Sir/ Madam

RE: Recommendation of About Commercial Cleaning

I am delighted to have this opportunity to provide this reference for About Commercial Cleaning.

Hindmarsh Property Services manage more than \$130 million of retail, industrial and commercial assets for owners from Noosa to Brisbane.

For more than 8 Years Roger Madder and his team have provided scheduled cleaning for us at many of our centres.

In addition they have been called on regularly to provide reactive services and even at times under emergency conditions clean ups after flooding.

Their cleaning standards have been consistently good, charges fair and responsiveness exemplary.

I have also been impressed by the way Roger has taken ownership of the very few complaints over all these years, even when there has been little or no fault on their part. With close to 200 tenants, not to mention the public observing their work on a daily basis, they are under intense scrutiny. Roger has always gone out of his way to personally address these few matters within a very short time.

Please do not hesitate to contact me should you require a more detailed recommendation of Roger Madder and About Commercial Cleaning.

Yours faithfully,
HINDMARSH PROPERTY SERVICES
